

What is Disciple Nations Alliance?

DNA is a worldwide Christian movement that exists to help churches fulfill their strategic role of being agents of transformation of their communities and nations. DNA began as a partnership between Food for the Hungry and Harvest in 1997.

DNA's core belief is that Jesus' blood was shed for the healing of "all things" broken through the Fall (Col. 1:20). This healing is offered not only to individuals, but extends to communities and entire nations as well. We believe God's primary instrument for the restoration of nations is the Church (Eph. 3:10).

DNA's vision is to see Filipino churches incarnationally demonstrating God's love to their communities resulting in transformation to all spheres of society.

DNA's mission is help churches, no matter how materially poor they are, to begin the transformation process by providing them with teaching, educational resources and simple tools to practice wholistic ministry in their community using existing resources.

DNA's strategy is to spread these ideas into churches, Bible schools, seminaries, mission organizations, and development organizations in order to influence all sectors of society.

DNA PHILIPPINES TEAM

Dr. Rey Taniajura - Co-Chairman
Debbie Toribio - Co-Chairman
Laura Abelarde - DNA Coordinator
Adoniram Suarez—DNA Partnership Development
Marlon B. Roldan—Harvest Representative
Keith San Luis—IGSL Representative

*Churches demonstrating God's love,
Communities being transformed!*

Vision Casting

This is a brief introduction to wholistic ministry for the local church. Great for settings such as cell groups, bible studies, leadership meetings, or Sunday school classes. Can be done in 2-6 hours.

Vision Conference

This is usually a 2-3 day conference designed to provide local churches with an overview of biblical worldview concepts, leadership development, and wholistic ministry strategies and tools. The goal is for the local churches to embrace this vision and their role to be incarnational ministers in their communities. Those people impacted by a vision casting event often seek to hold a Vision Conference for a larger group of people.

Training of Trainers

- **Basics I & II**
This is a unique wholistic discipleship curriculum that pastors or lay leaders can use to guide new and mature believers in the practice of Jesus' commands in all areas of life.
- **Local Church Ministry Training I & II**
This is a training tool for church leaders who want to guide their churches in outreach to the spiritual, physical, and social hurts of their neighbors. It offers vision, theology, and practical strategy.
- **Vision Conference**
Trains churches how to hold their own vision conferences.

Module Trainings

- **Worldview Impact on Communities**
Prepares those who have a heart for the poor to use worldview as a tool to expose the false principles that imprison people living in poverty, and to create a framework for seeing through the lens of truth in order that people may discover God's vision for their community.
- **Biblical Foundations for Wholistic Ministry**
Introduces the topic of wholistic ministry to churches and leaders. It discusses the biblical foundations for why wholistic ministry needs to be an essential ministry of the church and also provides practical applications for community transformation and service by the church.
- **Seed Projects: The Power of Love to Transform Communities**
Introduces the tool of Discipline of Love to believers to help them develop of a discipline of showing love to their family, churches, and communities. Also introduces the Seed Projects to local churches to help them develop the habit of reaching out to serve those outside the church with small demonstrations of God's love.
- **Community Development Skills for the Local Church**
A broad collection of skill building exercises and articles to equip churches to serve their neighbors in need. Includes topics such as participator learning, leadership, and project management.
- **Biblical Perspectives on Resources and Development**
Seeks to find a Biblical answer and understanding to the questions: What resources are needed for development, and where do these resources come from? Helps churches to see the many resources God has provided and will provide right there in their own communities!

- **Understanding the Kingdom of God**
Introduces key characteristics of God's kingdom as well as provides an overview of God's strategy and your role in building His Kingdom here on earth.
