### Change Myself First!

**For most people, the thought of changing their nation is overwhelming. Even one's city is overwhelming. What is not overwhelming is: Change Myself First! Change My Family First! Change My Neighborhood First! If your community is dirty and run-down, be the first to paint your house. If people are not working, be a model of hard work. If people are isolated from one another, start with your neighbors. With a Change Myself First mindset, the only barrier that can stop you is yourself.**

Change **Myself** First!

Change **Now** First!

Change **Here** First!

Change **Small Things** First!

Change **Do-Able Things** First!

Change **Until the End!** (*never stop*)

**Reflection:** Who do you expect to change first in your life, family and work?

-----

For the DNA, this connects with the inside-out process of cultural transformation which is the framework for all the teaching, training and equipping we provide to local churches around the world. It starts with regeneration at the individual level and spreads to the family, community, spheres of society, and nation.

## OUR APPROACH: TRANSFORM THE NATION THROUGH THE CHURCH
